EXPERIENCE

Software Engineer, Sample Payments (2021-06 to present)

- Moved the settlement service to Postgres with row-level security for 3 tenants.
- Cut p95 API latency from 900 ms to 180 ms by adding caching and query indexes.
- Set up CI with automated tests, raising coverage from 35% to 80%.

Junior Developer, Placeholder Media (2019-02 to 2021-05)

- Built a Next.js content site serving 200,000 monthly visitors.

EDUCATION

BSc Computer Science, Example Technical University, 2018

SKILLS

TypeScript, Next.js, Node.js, PostgreSQL, Docker, AWS, Vitest
